The Story of Swan Lake

Act I, The Courtyard of the Castle

It is Prince Siegfried's birthday and the royal court and people of the town have gathered to celebrate.

The Queen presents her son with a gift of a crossbow. He is delighted but then becomes preoccupied when his mother reminds him that he needs to find a suitable wife. He dismisses his guests and becomes captivated by the spectacular sight of a flock of swans in the distance. Grabbing his crossbow, he hurries from the palace to hunt them.

Act II, The Lakeside

Lurking by the lake is Rothbart, a half-man, half-bird with sorcerer's powers. Beating his huge black wings, he rises from the depths of the misty water then vanishes seconds before Prince Siegfried arrives.

The prince is amazed to find that each of the swans he followed is actually a young woman bewitched by Rothbart and only able to return to human form for a few hours at night. Among them is their queen, Odette. The flock protects Odette fiercely but slowly she begins to trust the prince.

When Rothbart reappears, Odette and the frightened swan-maidens flee, closely followed by Siegfried. Enraged, Rothbart summons Odette back to the lake. Prince Siegfried declares his undying love for Odette and swears to remain faithful to her. Jealous, Rothbart wrenches Odette away from their embrace, leaving Prince Siegfried desperate and alone.

Act III, The Great Hall of the Castle

A formal birthday celebration is taking place with royalty from all over the world invited. Among the guests are several princesses selected by the Queen as potential brides for Prince Siegfried. He politely dances with each woman, knowing he will never marry anyone but Odette. Rothbart arrives with his daughter, Odile. She is beautiful and dressed all in black. Unbeknownst to Siegfried, Rothbart has cast a spell over his own daughter, transforming her into an exact likeness of Odette. He plans to trick Prince Siegfried and force him into betraying Odette.

Siegfried is convinced he is dancing with Odette. So mesmerized by her, he fails to see Odette desperately beating her wings at the window. Siegfried declares that he intends to marry Odile. With his cruel plan complete, the triumphant Rothbart reveals his trickery. Realising his betrayal, Prince Siegfried follows the devastated Odette who runs back to the lakeside.

Act IV, The Lakeside

Odette returns to her flock of swans. Siegfried begs for Odette's forgiveness, which she eventually grants. When Rothbart arrives, a fight ensues; a struggle of good over evil. Rothbart's spell is broken by the power of Prince Siegfried and Odette's love. Rothbart is destroyed by the swan-maidens who are released from their enslavement. As the dawn of a new day rises, Siegfried and Odette are united in love.
